

Shower Fittings

SHH series

dormakaba Shower Fittings S1000

dormakaba S1000 shower hinges make a significant contribution to the overall attractiveness and sturdiness of shower doors. Designed to preserve the beautiful frame-less glass door design and thus to offer the ideal solution for different types and solutions of shower cabins.

Features:

- All S1000 shower hinges are non-handed and self-closing
- The S1000 shower hinges' mechanism keeps the door securely closed to ensure optimum protection against spraying water
- S1000 shower hinges are designed for frameless glass shower doors up to 900 mm wide, 2000 mm high and a maximum of 60 kg in weight (check technical data)
- Suitable for double-action doors, and glass thickness of 8 and 10 mm.

Technical data:

- Glass Thickness up to 8-10mm
- 45 kg per system (with 2 hinges) and 60 kg per system (with 3 hinges)
- Up to 2000 mm door height
- Up to 900 mm door width
- Material: solid brass
- Finish: polished chrome, satin stainless steel, and black

New finish: shower hinges in matte black

The matte black shower hinges provide an expensive feel that fits perfect to any design - from traditional styles to modern looks.
